Committee of Action for Research, Extension and Services Society

Registered with the Bangladesh Registrar of Joint Stock
Companies as a Society. **Established in 2012**

Dr. A. Majeed Khan

In order to **accelerate**
the growth of national
economy ...

...there is a need to
establish in Bangladesh
a common platform
wherein...

...best among our
farmers, the scientists
and the industrialists etc.
will evolve a common
course of action

CARES Fellow Prof. Rita Colwell,
At the Inaugural Conference of CARES in 2013 as
the South Asia Science Advisor to the US
President

MEANING:

The pathway to economic growth is through Industry & Scientific Collaboration with new Products and higher Productivity.

- New Products command higher price and profit
- Productivity increases profitability.

-SO TECHNOLOGY & INDUSTRY NEEDS TO WORK TOGETHER TO PRODUCE NEW AND BETTER PRODUCTS THAT ARE UNIQUE.

Some Specific Objectives:

The principal objective of the ***society*** is to support innovations (research and development), prototyping, extension and evidence based decision making together with rigorous evaluation of policy vis a vis performance to accelerate integrated economic development of the people of Bangladesh.

Some Specific Objectives: cont'd

- Agricultural development in fishery, livestock, horticulture, etc.
- Life sciences: Basic hygiene, preventive measures, and curative measures against diseases.
- Small & Medium Enterprises and promotion of agro-based industries, etc.;

Some Specific Objectives: cont'd

Work closely with the www.ugc.gov.bd
www.bas.org.bd and relevant government
ministries, professional organizations and
international agencies and foundationS to promote
excellence in higher education and enhance
opportunities for young scholars;

Some Specific Objectives: cont'd

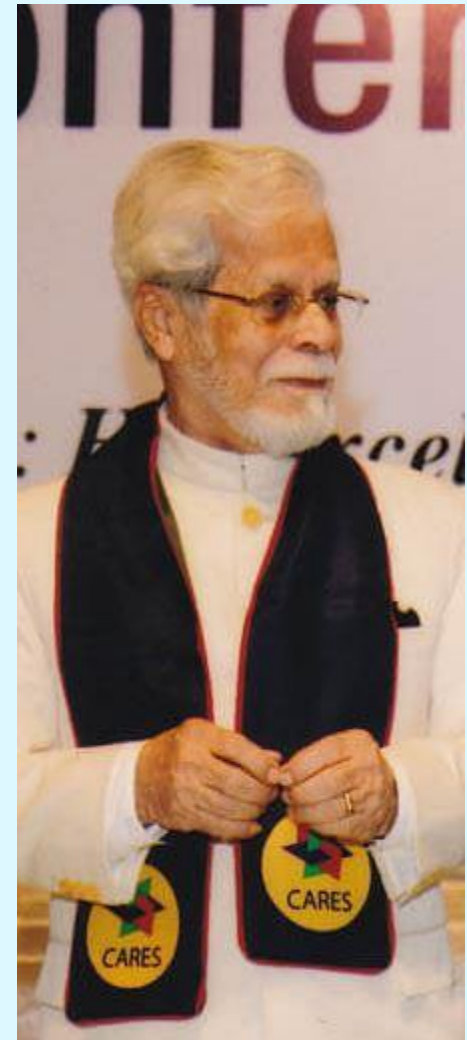

- Promote “research and development” in industry - university-farm/nature tripartite relationship so that fruits of innovations can be commercialized and optimized for economic output and public benefit.

Institute fellowship and financial grants to scholars for further studies. Studies including attendances at professional meetings, conferences etc.;

The idea was postulated
in the Financial Express
on 30 July **2010**

A Group of like minded
persons from the
different constituent
interests came together
to form CARES in
2012

**Ideas take time to
grow, germinate and
bear fruit**

what's next

CARES

INTERNATIONAL
CONFERENCE ON BIOTECHNOLOGY (ICB)

**CARES had a blistering
Launch in 2013.**

**Now the future is simmering
in our hands and the new
members joining in.**

**IT NEVER GETS EASIER FOR
THOSE WHO DO!!**

**Scientists are the brightest of our
nation and you have to message and
massage the fragile and rich egos of
our businessmen and create mutual
wealth through science and
technology that will serve our
people.**

THAT IS OUR MISSION

A large, 3D graphic of the words "Thank You!" in white, bold, sans-serif font. The text is set against a vibrant, multi-colored background that resembles a thick, expressive brushstroke in shades of red, orange, yellow, green, blue, and purple. The graphic has a sense of depth and movement, with the text appearing to float above the brushstroke. There are faint, repeating watermarks of the word "shutterstock" across the background.
